Dear Angela

A12 Junction 17

I am writing to let you know that we will soon be carrying out maintenance works along the A12 Howe Green Junction 17 on both carriageways and slip roads.

Currently the carriageway and slip roads have a number of cracks and fretting that need to be fixed in order to prevent further damage. There are also a number of concrete bays to be replaced on the northbound carriageway. This will improve road surface and enhance safety for all our customers.

Our contractors, Osborne will carry out this work on our behalf, from 2 October 2017 to 16 October 2017. We hope to minimise disruption to the travelling public by working overnight when traffic flows are lowest.

The working hours are as follows:

Working hours - Monday to Friday 20:00- 06:00

Traffic restrictions

In order to carry out this work as quickly and safely as possible we'll need to put in place some temporary traffic restrictions. A fully signed diversion route will be in place whilst the works are being completed. Where the slip roads are closed, traffic will be diverted to turn around at the next junction back to junction 17. Where a main carriageway closure is in place, traffic will be diverted via the junction 17 slip roads.

We have written to the local residents affected by our improvements and we would be grateful if you would publicise the details to your parishioners through newsletters and other communications where appropriate. We advise drivers to allow extra time to complete their journey. We will do our utmost to complete the improvements as quickly as possible, avoiding disturbance and keeping any noise to a minimum.

Find out more and contact us

For any questions, or if you would like to know about the scheme, please contact Highways England Customer Contact Centre on 0300 123 5000, or by e-mail to info@highwaysengland.co.uk

Yours Sincerely

Ian Kennard

Senior Project Manager, Jacobs
