

SANDON PARISH COUNCIL

ACTION PLAN 2024

The Parish Council will continue to try and engage with its residents. The Annual Assembly will take place 11th April at Sandon Village Hall. This will give a chance for the councillors to present to the residents, and to answer any concerns that they may have.

In this age of increasing electronic communication, it could be that the format of The Topics may need to be refreshed. The Council will look at whether an alternative method could be put in place

The council is still continuing with the new Community Centre. A Charitable Incorporated Organisation will be set up to move this project forward. The committee will continue to manage this project and to coordinate with local residents. Organisations are being approached for funds to help build this.

There is a waiting list for allotment plots in the village. The council has been notified by Chelmsford City Council that they are looking to provide a new site within the village. However, this is unlikely to take place this year. We will continue to liaise with CCC and inform the residents of developments.
